TOTAL THERAPY[®] HOT TUBS

CLASSIC COVERS[®] – AS EASY AS 1-2-3!

Manufactured on-site by Canadian Hot Tubs, CLASSIC COVERS[®] are the perfect option for those tired of struggling with bulky, heavy covers often provided by other hot tub and spa manufacturers. Customized to fit, compact and easy to handle, CLASSIC COVERS[®] can be conveniently rolled away in seconds. Their state of the art materials increase energy efficiency by sealing heat and humidity in and can be used both indoors and outdoors.

Canadian Hot Tubs[®] can custom craft a cover for any hot tub or spa – providing you with a perfect fit.

THE CANADIAN ADVANTAGE

For 30 years, Canadian Hot Tubs[®] has been a leading manufacturer of custom hot tubs and hot tub covers. Based in Kitchener, Ontario, the company is renowned for quality materials, expert workmanship and custom service.

ENERGY EFFICIENT

Economical and efficient, polyfoam insulation combined with the "Comfort Liner" ensures heat loss is minimal.

EQUIPMENT

Hot tubs come complete with an equipment package which includes jets, pump, filter and heater. They do not require a water or drainage supply.

INSTALLATION

Shipped as all inclusive kits, hot tubs are predrilled – making installation quick and easy. Installation manual and video are included. Local installation is available at additional charge.

WARRANTIES

Canadian Hot Tubs[®] come with a **10 Year Comfort Liner and Tub Warranty*** to be free from defects in the manufacturing workmanship and a **1 Year Parts & Labour Warranty*** against malfunction due to defects from the original date of purchase.

CANADIAN HOT TUBS[®] TUBSPA[®] LINE

In addition to the TOTAL THERAPY[®] Hot Tub, Canadian Hot Tubs also manufactures a signature line of standard sized hot tubs called TUBSPA[®]. Offering the same beauty and warmth of wood with the easy maintenance of a vinyl liner each hot tub is made with quality materials and expert craftsmanship with the durability to last a lifetime. Each TUBSPA[®] kit includes an instruction manual and video for easy installation.

**Complete Therapy and
Relaxation from Head to Toe**

THE ULTIMATE HOT TUB EXPERIENCE!

Deep and luxurious, Canadian Hot Tubs' new **TOTAL THERAPY**® Hot Tub is the first of its kind — manufactured at 5' high and 7' in diameter for exercise, relaxation and entertainment.

Imagine thousands of therapists' fingertips working at one time.
RELAXING. SOOTHING. HEALING.

TOTAL THERAPY

Utilizing water's buoyancy, heat and natural resistance, hydrotherapy can treat a wide range of physical conditions. The **TOTAL THERAPY**®

Hot Tub's unique 5' height and custom design enables you to enjoy the benefits of hydrotherapy, while either standing and exercising or sitting and relaxing.

THE IDEAL ALTERNATIVE

Unlike traditional hot tubs or spas, that don't let you move around freely, the **TOTAL THERAPY**® hot tub enables you to have the leg room to move around. Combined with a unique 5' height and the benefits of hydrotherapy, the **TOTAL THERAPY**® hot tub can be used to treat a wide range of physical conditions.

- Alleviate muscle tension and stress
- Reduce joint pressure

- Lessen inflammation associated with arthritis

- Increase circulation

- Improve flexibility, balance, coordination and strength

- Make exercising easier, regardless of age or fitness level

Hot tubs have helped those recovering from accidents and sports injuries as well as those suffering from arthritis, headaches and neck, back or knee pain. Physical therapists, massage therapists and sports doctors agree on the benefits of hydrotherapy.

The TOTAL THERAPY® Hot Tub Provides an Ideal Way For Those with Health Restrictions to Exercise and Relax.

THE PERFECT FIT

Canadian Hot Tub's **TOTAL THERAPY**® Hot Tub and **TUBSPA**® product line are the perfect choice -- for hydrotherapy, water exercise, quality relaxation time or entertaining family and friends.

- 5' height and standard 7' diameter provides ideal arm and leg room for water exercise (also available in 1 or 2 person sizes)
- Dimensions can be customized to fit most spaces
- Benches and jets can be positioned where they are needed most
- Beveled tongue and groove exterior (pine or cedar) retains heat and enhances visual appeal
- Easy to assemble kit can fit through any door
- Fits seamlessly indoors or outdoors, either at home or in a clinical setting
